ASTM Bulletins—1942

Subject Index

Papers and Reports

A

Accelerated Testing

Accelerated Testing of Paint Coatings—Results of Questionnaire—H. G. Arlt. No. 116, May, p. 9.

Acid Resistance of Plastics

Acid and Alkali Resistance of Plastics—John Delmonte. No. 119, December, p. 11. Discussion, p. 15.

Alkali Resistance of Plastics

Acid and Alkali Resistance of Plastics—John Delmonte. No. 119, December, p. 11. Discussion, p. 15.

Aggregates

Effect of Size of Specimen in Studies of Durability of Concrete as Affected by Aggregates—Stanton Walker and Fred F. Bartel. No. 118, October, p. 37.

Terminology Relative to Volume and Specific Gravity of Granular Materials for Concrete—Lewis H. Tuthill. No. 115, March, p. 17. Discussion, No. 118, October, p. 28.

Air Content

Some Data on the Air Content of Freshly Mixed Concrete—J. C. Pearson and H. G. Collins. No. 115, March, p. 13.

Aircraft Castings

A Study of Secondary Radiation in Relation to the Radiography of Aircraft Castings—L. W. Ball. No. 115, March, p. 27.

Air Permeability

Report on Air-Permeability Method for Determining Fineness of Cement. No. 118, October, p. 31.

Alloys, Non-Ferrous

Alternate Alloy Steels and Conservation of Strategic Alloys. No. 117, August, pp. 29–43:
- Raw Materials for Steel Manufacture—H. J. French.
- Conservation of Aluminum and Manganese—C. H. Herty, Jr.
- Materials Conservation in the Ordnance Department—J. H. Frye.
- Conservation of Elements Necessary for Tool Steels—N. I. Stotz.
- Conservation of Alloys in Stainless Steels—V. W. Whitmer.
- The National Emergency Steel Compositions—Charles M. Parker.
- Application of NE Steels—M. J. R. Morris.

Discussion of the Effect of Minor Alloying Elements on Aluminum Casting Alloys—W. Bonsack. No. 117, August, p. 45.

Effects of Sulfur and Antimony on Steam or Valve Bronze Castings—A. J. Smith and J. W. Bolton. No. 116, May, p. 18.

New Non-Ferrous Metal Specifications. No. 114, January, p. 35.

Questionnaire—Tests on Die Castings. No. 118, October, p. 30.

A Representative Bibliography of Silicon Bronze—Sponsored by A.S.T.M. Committee B-5 on Copper and Copper Alloys, Cast and Wrought. No. 119, December, p. 31.

Thermostat Metal—S. R. Hood. No. 114, January, p. 11.

Alternate Provisions and Specifications

A.S.T.M. Emergency Standards and Emergency Alternate Provisions. No. 115, March, p. 42; No. 117, August, p. 70; No. 118, October, pp. 8 and 51; No. 119, December, p. 8.

Complete List of A.S.T.M. Emergency Specifications and Emergency Alternate Provisions. No. 116, May, p. 48; No. 118, October, p. 59; No. 119, December, p. 55.

Federal Emergency Alternate Specifications. No. 114, January, p. 37; No. 115, March, p. 63; No. 116, May, p. 28; No. 117, August, p. 80; No. 119, December, p. 48.

Aluminum

Discussion of the Effect of Minor Alloying Elements on Aluminum Casting Alloys—W. Bonsack. No. 117, August, p. 45.

Emergency Reduction in Aluminum Content of Die Castings. No. 114, January, p. 48.

Antimony

Effects of Sulfur and Antimony on Steam or Valve Bronze Castings—A. J. Smith and J. W. Bolton. No. 116, May, p. 18.

Autogenous Healing

Autogenous Healing in Mortars Containing Lime—F. O. Anderegg. No. 116, May, p. 22.

B

Brass

Hardness Conversion Relations for Cartridge Brass—J. R. Townsend. Also Appendix: Proposed Hardness Conversion Table for Cartridge Brass (Relations Between Diamond Pyramid Hardness, Rockwell Hardness, and Brinell Hardness). No. 115, March, p. 35.

Bronze

Effects of Sulfur and Antimony on Steam or Valve Bronze Castings—A. J. Smith and J. W. Bolton. No. 116, May, p. 18.

A Representative Bibliography of Silicon Bronze—Sponsored by A.S.T.M. Committee B-5 on Copper and Copper Alloys, Cast and Wrought. No. 119, December, p. 31.

C

Cadmium Coatings

Report on Dropping Tests for Zinc and Cadmium Coatings—W. E. Buck. No. 115, March, p. 33.

Cartridge Brass

Hardness Conversion Relations for Cartridge Brass—J. R. Townsend. Also Appendix: Proposed Hardness Conversion Table for Cartridge Brass (Relations Between Diamond Pyramid Hardness, Rockwell Hardness, and Brinell Hardness). No. 115, March, p. 35.

Castings

Effects of Sulfur and Antimony on Steam or Valve Bronze Castings—A. J. Smith and J. W. Bolton. No. 116, May, p. 18.

High Sensitivity in Radium Radiography of Castings—L. W. Ball. No. 116, May, p. 29.

Cement

Investigation of Quick Methods for Determining Sodium Oxide and Potassium Oxide in Portland Cement—W. C. Hanna, L. M. Bryant, and T. A. Hicks. Also Appendix: Proposed Alternate Method for Determining Sodium Oxide and Potassium Oxide in Portland Cement. No. 114, January, p. 41.

Proposed Alternate Method for Determining Sodium Oxide and Potassium Oxide in Portland Cement. No. 114, January, p. 45.

Report on Air-Permeability Method for Determining Fineness of Cement. No. 118, October, p. 31.

Chemical Analysis

Proposed Alternate Method for Determining Sodium Oxide and Potassium Oxide in Portland Cement. No. 114, January, p. 45.

Color

Specification and Description of Color. No. 119, December, p. 19.

Compression-Meter

Development of Methods for the Evaluation of Textile Finishes—Edwin C. Dreby. No. 114, January, p. 15.

Concrete

Effect of Size of Specimen in Studies of Durability of Concrete as Affected by Aggregates—Stanton Walker and Fred F. Bartel. No. 118, October, p. 37.

Some Data on the Air Content of Freshly Mixed Concrete—J. C. Pearson and H. G. Collins. No. 115, March, p. 13.

Terminology Relative to Volume and Specific Gravity of Granular Materials for Concrete—Lewis H. Tuthill. No. 115, March, p. 17. Discussion, No. 118, October, p. 28.

Conservation of Alloys

Alternate Alloy Steels and Conservation of Strategic Alloys. No. 117, August, pp. 29–43:
- Raw Materials for Steel Manufacture—H. J. French.
- Conservation of Aluminum and Manganese—C. H. Herty, Jr.
- Materials Conservation in the Ordnance Department—J. H. Frye.
- Conservation of Elements Necessary for Tool Steels—N. I. Stotz.
- Conservation of Alloys in Stainless Steels—V. W. Whitmer.
- The National Emergency Steel Compositions—Charles M. Parker.
- Application of NE Steels—M. J. R. Morris.

Contact Testing Machine

An Electrical Contact Testing Machine—A. M. Suggs. No. 119, December, p. 25.

Cotton

Cotton Fiber-Length Determination Using the Fibrograph—K. L. Hertel. No. 117, August, p. 25.

A Cotton Fiber Strength Tester—E. H. Pressley. No. 118, October, p. 13.

Crankcase Oil

Analysis of Used Lubricating Oil—Discussion of Paper by L. L. Davis. No. 119, December, p. 17.

D

Defense Training Course

Engineering Defense Training Course in A.S.T.M. Testing Methods Given at Illinois Institute of Technology. No. 114, January, p. 31.

Die Castings
Emergency Reduction in Aluminum Content of Die Castings. No. 114, January, p. 48.
Questionnaire—Tests on Die Castings. No. 118, October, p. 30.

Dropping Test
Report on Dropping Tests for Zinc and Cadmium Coatings—W. E. Buck. No. 115, March, p. 33.

Durability
Effect of Size of Specimen in Studies of Durability of Concrete as Affected by Aggregates—Stanton Walker and Fred F. Bartel. No. 118, October, p. 37.

Durometer
Report of Hardness Test Section of Technical Committee A on Automotive Rubber, Committee D-11 on Rubber Products—L. V. Cooper, Chairman. Also Appendix: Proposed Method of Test for Indentation of Rubber by Means of the Durometer. No. 115, March, p. 37.

E

Electron Microscope
The Electron Microscope and Its Uses—R. Bowling Barnes and Charles J. Burton. No. 116, May, p. 34. Discussion, No. 118, October, p. 12.
A Scanning Electron Microscope—V. K. Zworykin, J. Hillier, and R. L. Snyder. No. 117, August, p. 15.

Electrical Contact Testing Machine
An Electrical Contact Testing Machine—A. M. Suggs. No. 119, December, p. 25.

Emergency Specifications
Alternate Alloy Steels and Conservation of Strategic Alloys. No. 117, August, pp. 29–43:
Raw Materials for Steel Manufacture—H. J. French.
Conservation of Aluminum and Manganese—C. H. Herty, Jr.
Materials Conservation in the Ordnance Department—J. H. Frye.
Conservation of Elements Necessary for Tool Steels—N. I. Stotz.
Conservation of Alloys in Stainless Steels—V. W. Whitmer.
The National Emergency Steel Compositions—Charles M. Parker.
Application of NE Steels—M. J. R. Morris.
A.S.T.M. Emergency Standards and Emergency Alternate Provisions. No. 115, March, p. 42; No. 117, August, p. 70; No. 118, October, pp. 8 and 51; No. 119, December, p. 8.
Complete List of A.S.T.M. Emergency Specifications and Emergency Alternate Provisions. No. 116, May, p. 48; No. 118, October, p. 59; No. 119, December, p. 55.
Emergency Reduction in Aluminum Content of Die Castings. No. 114, January, p. 48.
Federal Emergency Alternate Specifications. No. 114, January, p. 37; No. 115, March, p. 63; No. 116, May, p. 28; No. 117, August, p. 80; No. 119, December, p. 48.
Important Progress in Emergency Steel Specifications Work. No. 115, March, p. 64.
National Emergency Steel Work on Heavy Forgings. No. 118, October, p. 43.
New Technical Advisory Committees Approved in National Emergency Steel Specifications Work. No. 114, January, p. 9.
Procedure for Complete Emergency Standards. No. 115, March, p. 41.
Supplementary NE Steels, 9400, 9500, and 9600 Series. No. 118, October, p. 45.
WPB Iron and Steel Branch Advocates Use of 8000 Series Steels. No. 115, March, p. 46.

F

Fiber-Length Determination
Cotton Fiber-Length Determination Using the Fibrograph—K. L. Hertel. No. 117, August, p. 25.

Fiber Strength
A Cotton Fiber Strength Tester—E. H. Pressley. No. 118, October, p. 13.

Films
Note on the Coincidence of Equations for the Reflectance of Translucent Films—George W. Ingle. No. 116, May, p. 32.

Filter Press
Use of Filter Press in Preparing Samples for Soil Tests—J. L. Byers. No. 118, October, p. 11.

Fineness
Report on Air-Permeability Method for Determining Fineness of Cement. No. 118, October, p. 31.

Finishes
Development of Methods for the Evaluation of Textile Finishes—Edwin C. Dreby. No. 114, January, p. 15.

Friction-Meter
Development of Methods for the Evaluation of Textile Finishes—Edwin C. Dreby. No. 114, January, p. 15.

G

Gamma Ray
See **Radiography**

H

Hardness Testing
Hardness Conversion Relations for Cartridge Brass—J. R. Townsend. Also Appendix: Proposed Hardness Conversion Table for Cartridge Brass (Relations Between Diamond Pyramid Hardness, Rockwell Hardness and Brinell Hardness). No. 115, March, p. 35.
Report of Hardness Test Section of Technical Committee A on Automotive Rubber, Committee D-11 on Rubber Products—L. V. Cooper, Chairman. Also Appendix: Proposed Method of Test for Indentation of Rubber by Means of the Durometer. No. 115, March, p. 37.

I

Indentation Test
Report of Hardness Test Section of Technical Committee A on Automotive Rubber, Committee D-11 on Rubber Products—L. V. Cooper, Chairman. Also Appendix: Proposed Method of Test for Indentation of Rubber by Means of the Durometer. No. 115, March, p. 37.

L

Laboratories
Los Angeles Harbor Department Testing Laboratory—C. M. Wakeman. No. 114, January, p. 28.

Length
The Measurement of Length. No. 117, August, p. 24. Discussion, No. 119, December, p. 15.

Lime
Autogenous Healing in Mortars Containing Lime—F. O. Anderegg. No. 116, May, p. 22.

Los Angeles Harbor Department Laboratory
Los Angeles Harbor Department Testing Laboratory—C. M. Wakeman. No. 114, January, p. 28.

M

Mortars
Autogenous Healing in Mortars Containing Lime—F. O. Anderegg. No. 116, May, p. 22.

N

NE Steels
See also **Alternate Provisions and Specifications.**
Alternate Alloy Steels and Conservation of Strategic Alloys. No. 117, August, pp. 29–43:
Raw Materials for Steel Manufacture—H. J. French.
Conservation of Aluminum and Manganese—C. H. Herty, Jr.
Materials Conservation in the Ordnance Department—J. H. Frye.
Conservation of Elements Necessary for Tool Steels—N. I. Stotz.
Conservation of Alloys in Stainless Steels—V. W. Whitmer.
The National Emergency Steel Compositions—Charles M. Parker.
Application of NE Steels—M. J. R. Morris.
Supplementary NE Steels, 9400, 9500, and 9600 Series. No. 118, October, p. 45.
WPB Iron and Steel Branch Advocates Use of 8000 Series Steels. No. 115, March, p. 46.

O

Oil
Analysis of Used Lubricating Oil—Discussion of Paper by L. L. Davis. No. 119, December, p. 17.
New API Viscosity Standards. No. 118, October, p. 49.

Ordnance Inspection
Navy Ordnance Inspection—C. A. Misson. No. 115, March, p. 11.

P

Packings
Machines for Testing Reciprocating Packings—F. C. Thorn. No. 116, May, p. 23.

Paint
Accelerated Testing of Paint Coatings—Results of Questionnaire—H. G. Arlt. No. 116, May, p. 9.

Planoflex
Development of Methods for the Evaluation of Textile Finishes—Edwin C. Dreby. No. 114, January, p. 15.

Plastic
Acid and Alkali Resistance of Plastics—John Delmonte. No. 119, December, p. 11. Discussion, p. 15.
Shear Strength of Molded Plastic Materials—John Delmonte. No. 114, January, p. 25. Discussion, p. 27.

Potassium Oxide
Investigation of Quick Methods for Determining Sodium Oxide and Potassium Oxide in Portland Cement—W. C. Hanna, L. M. Bryant, and T. A. Hicks. Also Appendix: Proposed Alternate Method for Determining Sodium Oxide and Potassium Oxide in Portland Cement. No. 114, January, p. 41.
Proposed Alternate Method for Determining Sodium Oxide and Potassium Oxide in Portland Cement. No. 114, January, p. 45.

Protection Methods
Protection of Personnel Handling Radium—L. F. Curtiss. No. 114, January, p. 21.

R

Radiography
High Sensitivity in Radium Radiography of Castings—L. W. Ball. No. 116, May, p. 29.

Protection of Personnel Handling Radium—L. F. Curtiss. No. 114, January, p. 21.
A Study of Secondary Radiation in Relation to the Radiography of Aircraft Castings—L. W. Ball. No. 115, March, p. 27.
Trends in the Technique of Industrial Radiography—Herman E. Seemann. No. 115, March, p. 21.

Rank Correlation

Application of Rank Correlation to the Development of Testing Methods—E. R. Schwarz and K. R. Fox. No. 119, December, p. 21.

Reflectance

Note on the Coincidence of Equations for the Reflectance of Translucent Films—George W. Ingle. No. 116, May, p. 32.

Research

Current Research Activities. No. 114, January, p. 5.

Rubber

Report of Hardness Test Section of Technical Committee A on Automotive Rubber, Committee D-11 on Rubber Products—L. V. Cooper, Chairman. Also Appendix: Proposed Method of Test for Indentation of Rubber by Means of the Durometer. No. 115, March, p. 37.
S.A.E.-A.S.T.M. Classifications and Tests Recommended for Natural Rubber and Synthetic Rubber Compounds. No. 117, August, p. 66.

S

Scanning Electron Microscope

A Scanning Electron Microscope—V. K. Zworykin, J. Hillier, and R. L. Snyder. No. 117, August, p. 15.

Shear

Shear Strength of Molded Plastic Materials—John Delmonte. No. 114, January, p. 25. Discussion, p. 27.

Silicon Bronze

A Representative Bibliography of Silicon Bronze—Sponsored by A.S.T.M. Committee B-5 on Copper and Copper Alloys, Cast and Wrought. No. 119, December, p. 31.

Size of Specimen

Effect of Size of Specimen in Studies of Durability of Concrete as Affected by Aggregates—Stanton Walker and Fred F. Bartel. No. 118, October, p. 37.

Sodium Oxide

Investigation of Quick Methods for Determining Sodium Oxide and Potassium Oxide in Portland Cement—W. C. Hanna, L. M. Bryant, and T. A. Hicks. Also Appendix: Proposed Alternate Method for Determining Sodium Oxide and Potassium Oxide in Portland Cement. No. 114, January, p. 41.
Proposed Alternate Method for Determining Sodium Oxide and Potassium Oxide in Portland Cement. No. 114, January, p. 45.

Soil

Use of Filter Press in Preparing Samples for Soil Tests—J. L. Byers. No. 118, October, p. 11.

Specifications

See also **Emergency Specifications.**

Important Specifications, Emergency Alternate Provisions, Proposed at Steel Committee Meeting. No. 114, January, p. 33.
New Non-Ferrous Metal Specifications. No. 114, January, p. 35.

Specific Gravity

Terminology Relative to Volume and Specific Gravity of Granular Materials for Concrete—Lewis H. Tuthill. No. 115, March, p. 17. Discussion, No. 118, October, p. 28.

Statistical Analysis

Application of Rank Correlation to the Development of Testing Methods—E. R. Schwarz and K. R. Fox. No. 119, December, p. 21.

Strainometers

Proposed Method of Verification and Classification of Strainometers. No. 117, August, p. 83.

Steel

Alternate Alloy Steels and Conservation of Strategic Alloys. No. 117, August, pp. 29–43:
Raw Materials for Steel Manufacture—H. J. French.
Conservation of Aluminum and Manganese—C. H. Herty, Jr.
Materials Conservation in the Ordnance Department—J. H. Frye.
Conservation of Elements Necessary for Tool Steels—N. I. Stotz.
Conservation of Alloys in Stainless Steels—V. W. Whitmer.
The National Emergency Steel Compositions—Charles M. Parker.
Application of NE Steels—M. J. R. Morris.
Important Progress in Emergency Steel Specifications Work. No. 115, March, p. 64.
Important Specifications, Emergency Alternate Provisions, Proposed at Steel Committee Meeting. No. 114, January, p. 33.
National Emergency Steel Work on Heavy Forgings. No. 118, October, p. 43.
New Technical Advisory Committees Approved in National Emergency Steel Specifications Work. No. 114, January, p. 9.
WPB Iron and Steel Branch Advocates Use of 8000 Series Steels. No. 115, March, p. 46.

Substitutions

Material Substitutions. No. 115, March, p. 47; No. 117, August, p. 81.

Sulfur

Effects of Sulfur and Antimony on Steam or Valve Bronze Castings—A. J. Smith and J. W. Bolton. No. 116, May, p. 18.

T

Textiles

Application of Rank Correlation to the Development of Testing Methods—E. R. Schwarz and K. R. Fox. No. 119, December, p. 21.
Cotton Fiber-Length Determination Using the Fibrograph—K. L. Hertel. No. 117, August, p. 25.
A Cotton Fiber Strength Tester—E. H. Pressley. No. 118, October, p. 13.
Development of Methods for the Evaluation of Textile Finishes—Edwin C. Dreby. No. 114, January, p. 15.

Thermostat Metal

Thermostat Metal—S. R. Hood. No. 114 January, p. 11.

Timber

Stress-Strain Relations in Timber Beams (Douglas Fir)—Albert G. H. Dietz. No. 118, October, p. 19.

U-Z

Used Oil

Analysis of Used Lubricating Oil—Discussion of Paper by L. L. Davis. No. 119, December, p. 17.

Valves

Effects of Sulfur and Antimony on Steam or Valve Bronze Castings—A. J. Smith and J. W. Bolton. No. 116, May, p. 18.

Volume

Terminology Relative to Volume and Specific Gravity of Granular Materials for Concrete—Lewis H. Tuthill. No. 115, March, p. 17. Discussion, No. 118, October, p. 28.

X-ray

See **Radiography**

Zinc Coating

Report on Dropping Tests for Zinc and Cadmium Coatings—W. E. Buck. No. 115, March, p. 33.
